Do you have big ideas for clean growth? Interested groups are invited to attend public Information sessions in Victoria and Vancouver, this Monday and Tuesday. Applicants can be from provinces and territories, municipalities, Indigenous communities and organizations, businesses, and not-for-profit organizations. Learn more about how to leverage Canadian ingenuity to **reduce greenhouse gas emissions and generate clean growth** in support of Canada's clean growth and climate action plan, the Pan-Canadian Framework on Clean Growth and Climate Change.

Calling all Canadians with big ideas for clean growth and #ClimateAction!
